DNA TEST FOR HEREDITARY CATARACT

Re: AC2044 (Clemwood-Fiann Dom Perignon)  
Owner: Jeri Crabtree

Dear Sir/Madam,

The result for your DNA test is:

Clemwood-Fiann Dom Perignon - This dog has TWO COPIES of the hereditary cataract mutation.

This dog has two copies of the HC mutation and is at increased risk of developing cataracts during its lifetime. The dog will pass the mutation to all of its offspring.

Certificate will follow shortly.
